Who lives in house with dog?

Children? Ages?

How does dog interact with family members?

What to expect:

Please bring your dog hungry, skip a meal if you need to. Bring your dog's favorite treat, something they only get when coming to the vet.

To better get to know your pet, we will take them to the treatment room for a weight. This will allow us to better get to know them away from the owner.

Please allow at least one hour for your appointment with Dr. Sammons.

Please ensure all owners are here for the appointment with Dr. Sammons.
